

WHAT IS PROPOSITION CC?

PROP CC INVESTS IN OUR COMMUNITIES BY ALLOWING OUR GOVERNMENT TO KEEP AND SPEND THE MONEY IT ALREADY COLLECTS FROM US ON K-12 EDUCATION, HIGHER EDUCATION, AND TRANSPORTATION.

Prop CC was referred by our Colorado Legislature to the 2019 ballot. It asks Colorado voters to remove the arbitrary revenue limits which have severely limited our ability to invest in our students, our roads and bridges, and our communities.

The overwhelming majority of local governments and school districts have already asked voters to do what Proposition CC would do on a state level. Prop CC continues the momentum that has been building at the local level for years.

90% OF SCHOOL DISTRICTS
174 OF 178 DISTRICTS

84% OF COUNTIES
51 OF 64 COUNTIES

80% OF MUNICIPALITIES
230 OF 274 CITIES

WHAT DOES PROP CC DO?

- The role of our government is to protect, support, and empower us by wisely allocating our investments so our communities can thrive.
- Our elected officials haven't been allowed to do that because of the restrictive revenue cap which is not sound fiscal policy.
- A yes vote on Prop CC removes this cap so our elected officials can allocate the investments they already collect toward sectors where our state is falling behind: schools and transportation.
- A no vote on Prop CC leaves the revenue cap in place.

IF PASSED, THE MONEY — \$310M IN FY20 AND \$342M IN FY21 — WOULD BE DIVIDED EQUALLY BETWEEN:

ROADS, BRIDGES AND TRANSIT
FY2020: \$103m
FY2021: \$114m

K-12 PUBLIC SCHOOLS
FY2020: \$103m
FY2021: \$114m

HIGHER EDUCATION
FY2020: \$103
FY2021: \$114

There is sacred unity in community. Our society is built on the value of people caring about each other. Our students, our children, and our communities deserve every opportunity we can give them to thrive.

How will the money be spent?

Prop CC divides the money equally between K-12 education, higher education and transportation. In the first year, Prop CC would direct an estimated \$103 million to state, county and local transportation projects, \$103 million to higher education, and \$103 million to our public schools for "non-recurring" expenses like buying books or computers or creating incentives to retain and attract quality teachers.

What will you see on your ballot?

"Without raising taxes and to better fund public schools, higher education, and roads, bridges, and transit, within a balanced budget, may the state keep and spend all the revenue it annually collects after June 30, 2019, but is not currently allowed to keep and spend under Colorado law, with an annual independent audit to show how the retained revenues are spent?"

When we fail to provide the education people need to grow and thrive, we limit their full human dignity and all of us are harmed. Investing in the well-being of future generations is worth our time and energy today.

Though Colorado regularly ranks among the top economies in the country, our investment in our K-12 public schools consistently ranks near the bottom. Colorado spent roughly \$2,510 less per student in 2016 than the national average.

Investing in our communities is what makes them great places to live. But, 25% of our roads are in poor condition and nearly 500 bridges are deemed structurally inefficient.

The fundamental purpose, the moral mission, of our government is to act as the vehicle for us to empower and protect everyone equally and equitably. But, our government can't do it without us collectively investing in our communities.

ELECTION DAY IS NOV. 5TH!

Proposition CC will help curb the harmful effects of TABOR and put us on a path to solving our budget crisis.
